

Research for the highly reliable offshore wind power station

EWEC 2010 Side Event
09:00 – 15:00, 20th April 2010
EXPO XXI Warsaw International Expocentre,
12/14 Pradzynskiego Str. 01-222 Warsaw, Poland

<i>09:00 – 10:00</i>	<i>Coffee and tea / Networking</i>
10:00 – 10:30	Research for the highly reliable offshore wind power station
10:30 – 11:00	Speak from Garrad Hassan – title to be advised
11:00 – 11:35	Wind turbine reliability and availability
11:35 – 12:10	Design for reliability of wind turbines
<i>12:10 – 13:10</i>	<i>Lunch / Coffee and tea / Posters</i>
13:15 – 13:50	Advanced wind turbine health monitoring from SCADA
13:50 – 14:25	Fault analysis and condition monitoring in a wind turbine & practical techniques for wind farms
14:25 – 15:00	Lightning protection for offshore wind turbine

Each technical presentation will be 20 minutes followed by 10-15 minutes discussion.
